### Overview

The Heart-Check Food Certification Program Web Portal is where all products and recipes are submitted for certification and managed. All features are available on both desktop computer and mobile devices and are built in responsive design that responds to the orientation of each device in use. This application was built for optimal use in the Chrome browser. Some elements and colors may appear differently when using other browsers.

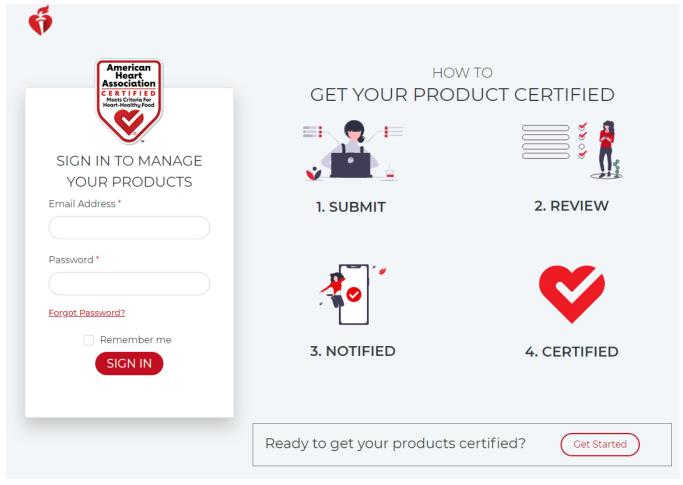

It is recommended that users not use the browser back button to navigate the application. Using the browser back button instead of navigating using options within the application may cause users to lose unsaved data.

#### The Web Portal allows you to:

- Submit new products for certification
- Renew currently certified or expired products
- Add additional sizes to currently certified products
- View all your products that are in process, submitted for review, or currently certified
- Upload updated packaging details for your products
- Deactivate products you no longer wish to certify

Once your Company Application is submitted, you will receive an invitation email from *"fcpsupport@heart.org"* with a link to complete registration and create a login to the Web Portal. If you do not receive the email, be sure to check your spam folder and allow messages from the American Heart Association. Add **FCPSupport@heart.org** to your email address book or Safe Sender list to be sure to receive future automated emails about your account.

If you do not receive the invitation email after checking your spam folder, contact us at <u>certify@heart.org</u> or call (214) 706-1160.

### Getting Started - Portal Log In

Image 1

- Navigate to the Web Portal
- Enter the corporate email address and password for the primary contact set during registration. (Image 1)

### Forgot Password

### Forgot Password

Please enter your email address to reset the password:

*	Indicates	a	required	fiel	c
---	-----------	---	----------	------	---

Email Address *	How do you want to reset your pas	ssword? *
	O Reset password via email.	Reset password via Security Questions.
Reset Password Cancel		
	Image 2	

- Click Forgot Password link on login screen (Image 1)
- Enter email address (Image 2) and select a method of recovery:

- Reset password via email.
- Reset password via Security Questions.
- Reset password via email sends an email with link to reset the password.
- Reset password via Security Questions prompts security questions as set-up during registration.

### Terms of Use and Privacy Policy Acceptance

Terms of Use and Privacy Policy Acceptance	
The terms of use and privacy policy has been Please accept the updated terms of use and p policy. I have read and understood the <u>Terms of</u> <u>Privacy Policy</u>	orivacy
Submit Cancel	
Privacy Policy	<u>Use</u> and

- Upon first login after the Terms of Use or Privacy Policy got updated, you will be prompted to check the checkbox to accept the updated Terms of Use and Privacy Policy and Submit. (*Image 3*)
- Only after accepting the updated Terms of Use and Privacy Policy, will you be able to log in to the application.

Once logged in, you may view and search the Products and Recipes you have submitted for certification by using the search

boxes provided. (*Image 5*) You can also download a PDF of this User Guide.

- Search Products or Recipes by:
  - Category This will default according to the section selected. (Image 5)
  - o Status
  - o Name

٠

- View Products or Recipes by Status:
  - In Progress A product or recipe submission that is not yet completed.
  - Submitted A completed product or recipe submission that is currently under review by the Heart-Check program staff.
  - Certified Products or recipes completed and currently certified.
  - Expired Products or recipes expiration date has passed and currently expired.

### Product / Recipe Search Results

- Action:
  - Edit / Delete Edit or delete products or recipes "In Progress" of the submission process.
  - Deactivate Deactivate products or recipes.
  - o Renew Renew products or recipes.
- Name:
  - Displays product or recipe name.
- Status:
  - Displays product or recipe status (i.e. In Progress, Submitted, Certified or Expired)".
- UPC Code:
  - Displays product UPC code if provided while adding product.
- Package Size:
  - Displays the product package size.
- PLA or RLA Start Date:
  - Displays product License Addendum (PLA) or Recipe License Addendum (RLA) Start Date if the product is in certified status.
- PLA or RLA End Date:
  - Displays product License Addendum (PLA) or Recipe License Addendum (RLA) End Date if the product is in certified or deactivated status.
- License Type:
  - $\circ$   $\;$  Displays the Product License Type based on the product type selected.
- Product Type:
  - Displays type of product selected while adding product i.e. Branded Product, Branded Commodity, Brand Form Variation or Variety Pack.

	Serving Size	Serving Size UoM	Type of Product <u>What's this?</u>

- On the Add Product screen, add all required information in the section order as they appear on screen. Each section is unavailable until the previous section is completed. **Note:** To return to the previous section, click on the specific section and do not use browser's back button as this will erase all work if not saved as draft. (*Image 8*)
  - 1. Product Details
  - 2. Product Info
  - 3. Nutrition Info
  - 4. Packaging Info
  - 5. Payment Info
- Has UPC Code? Select Yes or No.
- If No, select the Reason from the drop-down.
- On product details screen, enter:
  - UPC Code (if any)
  - Product Name
  - Package Size
  - Serving Size / Unit of Measure (UoM)
  - Type of Product Clicking "What's this?" Opens a pop-up window with definitions for each type of product allowed:
    - **Branded Product** A single standard product that is sold under a specific brand name.
    - Brand Form Variation A reduced fee structure is allowed when products' Nutrition Facts panel and ingredient list are identical and the products only differ by the label or form. For example, a single private-label product that is sold under different names.
    - Branded Commodity When a commodity product is marketed or packaged displaying a brand name and the submitting company is a member of a Trade Association that certifies the same commodity product. For example, Goldheart Farms Broccoli.
    - **Commodity** When fresh produce is sold without a brand name.
    - Variety Pack A variety pack presents a unique circumstance based on certifiability and/or certification of the individual products within the variety pack and whether or not they are sold separately. Additionally, variety packs are typically marketed and promoted as separate or unique products which necessitates additional review and approvals beyond typical serving and packaging size variations. Therefore, the reduced fee schedule that applies to brand and form variation will also apply to variety pack pricing.
    - If you're unsure about which product type to choose, **ask your Business Development Manager or** contact us at <u>certify@heart.org</u> or (214) 706-1160.
  - Trade Association
    - This drop down is only active if Branded Commodity is selected for Product Type and then requires a selection to be made.
  - o Main Product
    - This drop down is only active when Brand Form Variation is selected for Product Type and then it requires a selection to be made.
- Save & Continue to proceed to add Product Information.
- Save As Draft to complete and submit the form later.
- Products saved as a draft are available on the Home Page and will be shown as "In Progress" status."

- Enter Product Info for the required fields:
  - Guideline The Guideline selection will prompt different options on subsequent screens.
  - FDA/USDA Products Subcategory Code
  - Grocery Store Primary Location Not required

- Certification Requested / Product Category
- Does this product compete with or position itself as a Supplement, Meal Replacement or Weight-Loss Product? Not required
- Grocery Food Category
- List any Non-GRAS Ingredients (Generally Recognized as Safe Complete disclosure required.)
- If you check Yes for the question, "Does this product compete with or position itself as a Supplement, Meal Replacement or Weight-Loss Product?" you will be unable to continue certifying that product.

The Heart-Check Program does not currently allow certification for supplements, weight loss products, or meal replacements. As such, your product would not be eligible for certification at this time. If you feel you have reached this message in error, please contact your Business Development Manager or notify us by calling 214-706-1160 or emailing <u>certify@heart.org</u>.

- If No, you may proceed.
- Save & Continue to proceed to Nutrition Info.

Add Product - Whole Grain

### Add Product

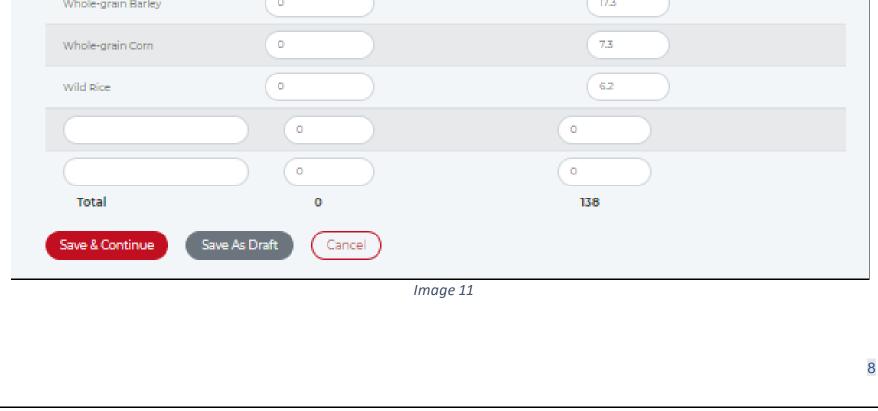

Company Name A Sample Heart Check Company

Product Details Product Info Whole Grain Nutritional Info Packaging Info Payment Info

#### **Please Provide:**

The "raw" (not rounded) gram weight of each whole-grain ingredient used in this product per 100 grams of the product
 The dietary fiber yield (grams) per 100 grams of each whole-grain ingredient.
 Note: Flaxseed and other seeds are not considered cereal grains and may not be applied to the \$1% requirement.

Whole-grain Ingredient	Cram weight per 100 grams of product	Dietary Fiber yield in each ingredient (per 100 grams)
Brown Rice	•	3.5
Buckwheat	•	10
Bulgur (Cracked Wheat)	•	18.3
Millet	•	85
Papcom	•	•
Quinoa	•	E9
Sorghum	•	9
Triticale	•	14.6
Whole Oats/Oatmeal	•	10.6
Whole Rye	0	14.6
Whole Wheat	•	12.2
Whole-grain Barley	0	173

- If the Guideline selected for Product Info (*Image 10*) was Whole Grain, then a Whole Grains section is available in the navigation menu (*Image 11*) and nutritional facts for that whole grain product must be entered.
- Please provide:
  - a. The "raw" (not rounded) gram weight of each whole-grain ingredient used in this product per 100 grams of the product.
  - b. The dietary fiber yield (grams) per 100 grams of each whole-grain ingredient.
- Additional whole grain ingredients not already listed may be added using blank fields provided.
- Save & Continue to proceed to Nutritional Info.
